

Global Light Initiative Testimonials

From the Light Council of 7:

"The journey of this council was nothing short of miraculous. When I first took the leap, I was overcome with emotion. I knew deep within my being I was going to reunite with soul sisters from all different dimensions known and unknown. The amount of love that poured out of my heart was indescribable. Before each call, my heart chakra would vibrate out of my chest, this would emanate throughout my entire 3D body. I know now I was feeling the beauty and outpour of love from these extraordinary women. We were all working together to 'get out of our own way.' This unique experience allowed room for manifestation like never before, because there is power in collective consciousness..." ~ Lisa S. Florida

"Being a part of the Light Council Initiative was one of the most beautiful experiences life has offered me thus far. The amount of love that was channeled paired with the space that was held through Lily, the Council, and the Galactic Federation of Light, I was able to explore depths of my soul that go far beyond this lifetime. It is a rarity to be surrounded with so much light and knowledge without judgement. This brought an entirely new experience to shadow work and getting to know my shadow self and accept her, to manifest the life that I desired..." ~ Jordyn M. Florida

"The Light Council Initiative was an eye opening, and life changing experience for me. I am an intuitive by birth. During my time with the Light Council, I became aware that I had closed off many of these gifts to myself. There were generations of blockages that were getting in the way of me fully expressing myself. My time with the Light Council afforded me a safe and supportive place to explore what I could do to dissolve these blocks, and release what was no longer serving me. With the love and support of Lily, the Galactic Federation of Light and my soul sisters in the Council I was able to put these past traumas behind me. I feel so much gratitude for Lily, and the ladies of the Council. I feel like a different person now. Without the past holding me down, I am able to be who I really am...an aspect of Light, with a Divine purpose to fulfill in this incarnation. I am the light and loving Wayshower I came here to be."

"I have worked with Lily for several years now, participating in her breathwork sessions, attending a retreat in the North Ga mountains, and now as one of the members of the Light Council Initiative. This experience was so beautiful and powerful, with each week bringing awareness to both the shadows we are facing as individuals and the challenges the collective is facing as a whole. The council was a beautiful, safe place to work on what was presently in our human experience while also stepping into our knowing and truth as creators. Holding space for each other, in a way of non-judgement, with love and compassion, has changed the way I now interact in my personal life. The community Lily is building is so needed in our world today, to bring humanity together as we all remember that we are and always will be connected." ~ Jennifer B., Florida
